

2 August 1962

MEMORANDUM TO: Mr. Dulles

1. The draft of your proposed speech to be delivered on 9 August 1962 before the Third Session of the Assembly, California Masonic Memorial Temple, San Francisco, California, subject, "An Analysis of Communist Techniques for Conquest," is returned herewith.

2. It is presumed the references to the secret speech of Khrushchev appearing on pp. 14 and 16 of the draft relate to the speech obtained by Agency covert sources and later released and publicized by the Department of State. If this is correct, there is no objection. If, however, you are referring to some other speech, it would be necessary to consider the source of the information concerning such other speech.

3. On p. 8 you state something that has appeared in public print, but it is requested that you delete so much as reads:

25X1C

It is hoped that you will do this because your statement could be misconstrued and tied in with an unfortunate statement printed recently which involves security implications.

STANLEY J. Grogan  
Assistant to the Director

Attach.
